

Output Information Name (Output Information Code)			Manifest Information Registration Result Listing Information (SAS120)																			
Item No.	Column	Field name	Attribute	Length	Repeat 1	Repeat 2	Type										Code	Output Condition/Format				
							In the case of the MFI procedure					In the case of the DMF procedure										
1		Output Common Field	an	398			M				M								Output the following item in the mail subject. • Vessel Code: 9 digits • Voyage Number: 10 digits • Carrier Code: 4 digits			
2		Procedure Code	an	5			M				M						Procedure Code	Output "MFI△△" for MFI procedure. Output "DMF△△" for DMF procedure				
3		Internal Procedure Code	an	5			M				M						Procedure Code	Output "1MR△△" for MFI procedure. Output "1MD△△" for DMF procedure (*) To verify the contents of the Process Result Code, refer to the list of procedure messages for "1MR" or "1MD" procedure.				
4		Vessel Code	an	9			M				M						Call sign	Output [Vessel Code] entered.				
5		Voyage Number	an	10			M				X							Output [Voyage Number] entered for MFI procedure.				
6		Carrier Code	an	4			M				M							Output [Carrier Code] entered.				
7		Port of Loading Code	an	5			C				X						UN/LOCODE	Output [Port of Loading Code] entered for MFI procedure.				
8		Port of Loading Suffix	an	1			C				X							Output [Port of Loading Suffix] entered for MFI procedure.				
9		Port of Discharge Code	an	5			C				M						UN/LOCODE	Output [Port of Discharge Code] entered.				
10		Port of Discharge Suffix	an	1			C				C							Output [Port of Discharge Suffix] entered.				
11	200	Process Result Code	an	15			M				M						Process Result Code	Output [Process Result Code] determined by the system. (*) To verify the contents of the Process Result Code, refer to the list of procedure messages for the "1MR" procedure.				
12	*	B/L Number	an	35			M				C							Output [B/L Number] extracted in ascending order. (*) When it is DMF, if an error occurs in a check other than B/L check (such as the Manifest Information DB verification), output "space".				
13	*	Date of Departure	n	8			C				C							Output [Date of Departure] (Date of Departure entered in ATD procedure) registered in the Cargo Information DB.				
14	*	Time of Departure	n	4			C				C							Output [Time of Departure] (Time of Departure entered in ATD procedure) registered in the Cargo Information DB.				
15	*	Time Difference from Greenwich Mean Time	an	5			C				C							Output [Time Difference from Greenwich Mean Time] registered in the Cargo Information DB.				
16	*	Relaxed Application Area Identifier	an	1			C				C							Output [Relaxed Application Area Identifier] registered in the Cargo Information DB.
